ELECTRICAL

COMPANY OVERVIEW

ICE Electrical Ltd is a privately owned and operated Electrical Contracting Business located in Taranaki New Zealand.

Formed in 2002 over the last 19 Years ICE Electrical has grown into a diverse and well respected construction and maintenance company.

In 2019 the company sought and gained financial investment and Stephen Frowde was appointed as Managing Director. The business structure allows ICE Electrical to continually develop exceptional service to clients; improve Health & Safety and Risk management systems; while pursuing targeted, specialist and calculated growth.

The business focus for ICE Electrical follows these simple principles:

- Leadership and Commitment
- Policy and Strategic Objectives
- Planning
- Correct Resources and Skills
- Hazard and Risk Management
- Audit and Review

ICE Electrical Ltd is seeking a point of difference within the industry where Client-Supplier-Contractor relationships work as a partnership delivering cost efficient practical solutions to the highest quality. With a significant change to the way trade based services are operated within New Zealand; real time technology is advancing our data collection across sites and we are now able to provide true cost of project information back to the clients; this technology coupled with our years of knowledge and experience delivers savings through transparent contract agreements and ensures sustainable project margins for ourselves and our project partners.

HEALTH & SAFETY

ICE Electrical has a strong commitment to Health & Safety and our moral obligation to protect the environment and our people from harm.

The original diversity of the ICE Electrical client base has allowed information sharing across sectors of the industry that benefits our clients. This approach creates a culture that all employees understand and recognise.

ICE Electrical has memberships with industry recognised organizations:

- Site Safe
- Prequal (CPNZ)
- ISN Network
- ECANZ
- NZDDA

The advanced ICE Electrical Health & Safety system allows all employees to access real time information, record regular site audits in real time and provide instant incident reporting through an onsite online multi-platform system.

The ICE Electrical Health & Safety Policy is available upon request

OUR PEOPLE

At ICE Electrical Ltd we seek trade passionate individuals hungry for development. Investing in talented people the reward is for both the individual and company and the success has been highlighted through the achievement of multiple apprenticeship awards, high employee retention and positive development post employment at ICE Electrical Ltd.

With Full Time Employees and a reliable contractor network ICE Electrical have the ability to manage a diverse range of specialist projects and maintenance contracts customised to client requirements.

The entire management team at ICE Electrical have Instrument and Electrical background and this caters for effective financial decisions and an accurate understanding of project based challenges.

OUR SYSTEMS

ICE Electrical Ltd operate cloud based systems for Project Management, Health & Safety, Financial Management, Quality Control & Compliance and Human Resources. These systems allow for real time assessment of the business across with no boundaries.

Our automated approach to our systems ensure consistent presentation of contractual requirements to our partners and seamless integration from quotation to project completion. ICE Electrical Ltd have invested in systems that will drive the business into the future of the trade based industry.

SPECIALIST SERVICES - WATER & HVAC

WATER & WASTE WATER

Design Partners

Instrumentation

Electrical Services

Maintenance

Feature Project: Fonterra Whareroa WTP

Client: Fulton Hogan

Overview: In 2016 ICE Electrical Ltd partnered with Fulton Hogan and BECA for the design and build 30ML Water Treatment Facility to the Fonterra Whareroa site. The project presented multiple challenges from weather delays to late stage design modifications. ICE Electrical Ltd with an accountable and reliable contract management system, offered practical advice with sound knowledge and partnered with capable suppliers and sub-contractors to ensure minimal contract delays and professional service.

Post commissioning and the following 12 months ICE Electrical Ltd has had zero call backs for warranty or maintenance issues.

INDUSTRIAL HVAC

Design Partners

Instrumentation

Electrical Services

Maintenance

Feature Project: Fonterra Whareroa Casein

Client: Fonterra (Excel)

Overview: In 2017 ICE Electrical Ltd partnered with Fonterra, Excel and Intellex to assist with the design and build of a air improvement project to the Whareroa Casein plant. The project design was modified slightly with both practical and technical input post HAZOP and time frames for the project were extremely tight through the winter shutdown period. The project had added challenges with three large scale projects I&E projects taking place in unison and project management and coordination was a key to the entire success of the project. On Contract Management terms ICE Electrical Ltd negotiated with Fonterra to minimise project costs and secure margin.
